

# Connecting Camps TO THE CURRICULUM

## WE UNDERSTAND THAT SCHOOL CAMPS CAN SEEM LIKE A LUXURY

That's why the team at Queensland Recreation Centres developed curriculum-linked resources to help teachers and students get the most out of camp. We want everyone to have a fun camp experience, while still having the opportunity to build and develop those important core life skills.

## LINKING ACTIVITIES TO PRIORITIES

**We've put in the hard work so you don't have to.**

Our activities are linked with all relevant content descriptors and elaborations for the specific learning areas being achieved. As an example, a student in the 7/8 year band participating in **Archery** would utilise the below as just one element of the activity.

### ACPMP088

Modify rules and scoring systems to allow for fair play, safety and inclusive participation.

### Elaboration

Recognising potential hazards and selecting appropriate responses when undertaking physical activities in the natural environment.
